USDA'S NATURAL RESOURCES CONSERVATION SERVICE (NRCS) IS A LOCAL RESOURCE FOR INNOVATIVE CONSERVATION SOLUTIONS TO IMPROVE THE LAND AND PROTECT YOUR WAY OF LIFE.

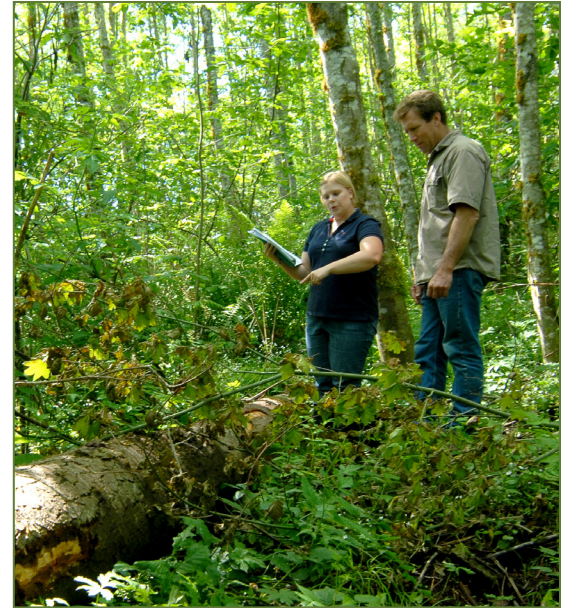

Financial and technical assistance is available for private non-industrial forest landowners through the **Environmental Quality Incentives Program (EQIP)**. This is a competitive program, and you may be able to receive assistance to implement the following conservation activities:

- Pre-commercial thinning
- Fuels reduction
- Riparian Area Enhancement
- Planting of crop or pasture land to trees
- Sediment reduction from forest roads
- And more!

Contact your local NRCS field office to learn more about how NRCS may benefit you and your land.

NRCS FIELD OFFICE CONTACTS:

Team Name	District Conservationist	Counties Supported	Contact
North East Team	Patrice Beckwith (Acting)	Stevens, Pend Oreille, Ferry	(509) 685-0858 Ext. 115

Southwest Team	Nick Vira	Clark, Skamania, Lewis, Cowlitz, Wahkiakum, Grays Harbor and Pacific	(360) 748-0083 Ext. 101

Your forest management plan will serve as a blueprint for planned conservation activities.

FOREST MANAGEMENT PLANS

Before applying for financial assistance through the Environmental Quality Incentives Program (EQIP) for your forest or woodland, you should develop a forest management plan—an essential part of managing your forest.

Through EQIP, NRCS can provide financial assistance to aid in the cost of having a professional forester help prepare your plan. These plans serve as a framework for making decisions about what activities you want to complete on your forest property. The plan may also give you a competitive advantage when applying for funds to implement projects.

NRCS maintains a list of foresters who provide these plans at <http://techreg.usda.gov>. Contact your local service center for more information on the program.
